Construction at Reid Hillview Airport

Notice Number: NOTC7763

Reid Hillview Airport is in the process of conducting surface rehabilitation projects throughout the month of May 2018. The work will include removing rubber and surface markings, crack sealing and painting taxiway and runway surface markings. Ensure you check NOTAMs for the status of runways and taxiways prior to your visit. <https://notams.aim.faa.gov/notamSearch/>

There will be times that practice approaches and pattern work may be limited or suspended due to runway availability and the volume of traffic. Large aircraft should check if Prior Permission Required is in affect.
