1/01: HAPPY NEW YEAR to ALL!

Hello,

Beyond the fact that we are welcoming a New Year, I caution all, that a great New Year will not arrive all by itself; rather we as participants have a huge challenge ahead of us. We each must do whatever we can to make the new year great. I ask all to carry on with strength and vigor!

To that end, SCAUWG.ORG has continued to publish the material that visitors can use to further their awareness of the current airspace and safety environment, and to also publish those pieces designed to provide clues about the future, and the opportunities we are certain to face.

During the past month our unique daily visitor count is over 4500. Session count is more. During the same period SCAUWG.ORG hosted 6672 sessions!

The most popular browser used by a visitor is Chrome... followed by IE, Opera, Firefox, Edge, and Safari Mobile.

The most popular operating system that our visitors use is Windows... followed by Linux Mac, IOS, and Android.

Continuing, we have reported on:

- The newly proposed Secretary of Transportation Pete Buttigieg, and the premature departure of the recent Secretary.
- The proposal to enact a third Pandemic Special Federal Aviation Regulation (SFAR) policy.
