Subject: Question and Answers

Good day REI Tenants we seek your input, questions, and or concerns relating the FAA's planned zoom conference call relating to San Bernardino International Airport (SBD) "UPS Special Instrument Flight Procedure – SBD RNAV Visual Approach Runway 24 and Go-Around Procedures" SRMP; the attached PDF is a representation/concept of the flightpath.

Please note this is a FAA initiated government internal conference call; with that said; we believe it is important to collect REI user questions and or concerns. We will pass on as appropriate, written questions. **Please send** to REI Airport Supervisor via email (cshaffer@cityofredlands.org) **by noon Friday, February 19th, 2021.**

The three day Government Panel is scheduled for 2/23 to 2/25

Thank you all for your time and input.

Carl Bruce Shaffer, MEP

Airport Supervisor
