Limited Access This Meeting Due to Covid-19 Zoom Conferencing Instruction Below

Introduction: Captain Michael Wilson, USN (Ret) & Delta Airline Captain (Ret)

Position: Mike is now an FAA Aviation Safety Inspector currently serving in the FAA's headquarters policy office for unmanned aircraft. Formerly the Unmanned Aircraft Systems (UAS) Program Manager for Southern Region for eight years, Mike is a UAS Subject Matter Expert for policy and regulatory development in the General Aviation and Commercial Operations Division. His work includes developing UAS policy, standards, operations, and outreach, helping to establish the FAA's integration of UAS into the NAS. His work also includes the development and construction of the FAA's Library of Lessons Learned from Civil Aviation Accidents.

Title of talk: "Integration of UAS into the National Airspace System, NAS"

Welcome, Captain Mike Wilson. I'm pretty confident Ed Story has done it again, and found another extremely qualified expert we can use to introduce the UAS into the LA Airspace when the time comes.

Today's talk should allow time for a few questions prior to the SCAUWG meeting.

Sincerely,

Pat

Patrick T. Carey
Co-Chairman

We constitute a dynamic mechanism wherein aviation users and industry representatives can effectively interact with each other in their commitment to resolve airspace related problems and improve aviation safety, utility and efficiency. We are a pioneering group, willing to join in our commitment to create working means and communication channels to achieve airspace and safety goals. We, as professionals, have the knowledge, technology, means and desire to explore new ways of achieving change. We have committed ourselves to cooperative action, including opposing views, and are taking necessary steps to make a significant contribution to our air transportation system.
