

Vol 30 May. 2021 Website Report

Hello,

I am happy to report that we have maintained a high monthly visitor count in April. SCAUWG.ORG saw a unique daily visitor count total of 4726, Up a bit from March. The page impression rate was 3.23 – the same as March, and our session count, the total monthly log-ons by real people, numbered 5131 for the month, also up a bit from March. Our Info Warehouse Page 3 was visited 705 times during the month.

During the month there were by comparison quite a few GPS Testing Notices that we published on our GPS Testing Page. Even now (5/11) Yuma Proving Grounds remains an active alert.

Because Candy so well documented the LA TAC changes, her report for April appears on the site, and the TAC update topic was redesigned. Further redesign will take place because her reports like THIS ONE deserve more presence.

During the month the “Pop-Up” Info boxes have been utilized to point out new site features and are updated with the idea in mind that we might broaden our visitor direction and experience.

Continuing, during the month SCAUWG.ORG reported on dozens and dozens of stories and breaking news events that were included on our “Top of the Page” slides, and on our Information Warehouse & Short Takes Pages.

- KIZA – Santa Ynez Airport’s NOTAM that details no straight-ins
- EAA Chapter 40’s (that’s the San Fernando Chapter that meets at Whiteman) “Spirit of LA” program for kids that are building an aircraft.
