"The Big Bear Airport District provides Big Bear Valley with a safe, efficient and superior venue for aviation operations"

Temporary Runway Closure

Big Bear Airport's Runway Rehabilitation Project requires complete closure of Runways 26 and 08. These two closures are scheduled for June 5th and June 12th from 7am-3pm, weather permitting.

Due to the unprecedented amount of precipitation this winter, the runways and taxiways are experiencing cracking in the asphalt which will be repaired throughout the summer with minimal impact to aviation transportation. This project is categorized under the Airport Pavement Maintenance Study where it outlines the responsibility of the airport to ensure future grants for pavement rehabilitation.

Your flexibility and understanding during these brief closures is appreciated. If you have questions regarding this notice please call us.

Sincerely,

Ryan Goss

General Manager

Big Bear Airport
