From: Cynthia Guidry, Director, Long Beach Airport

For: Mayor and Members of the City Council

Subject: **Federal Aviation Administration & Long Beach Airport Webinar on General Aviation – Final Details**

On May 14, 2024, the Long Beach Airport (LGB) released a [memorandum](#) announcing a public informational webinar (Webinar) to be co-hosted by the Federal Aviation Administration (FAA) and LGB on Tuesday, June 25, 2024, from 5:00 p.m. to 7:00 pm. This memorandum provides final details and instructions for joining the webinar.

Registration for the Webinar is now available at the [FAA Community Engagement website](#) and also via this [direct link](#). Registering early allows attendees to submit questions before the Webinar. Attendees may also submit questions during the Webinar via the chat feature. The event will be recorded and available for later viewing on YouTube. Representatives from various FAA lines of business will be joined by LGB staff, along with members of the Aircraft Owners and Pilots Association (AOPA), the National Business Aviation Association (NBAA), and the Long Beach Airport Association (LBAA).

Topics will include:

- FAA's management of Southern California's complex airspace.
- Historic and current general aviation operations at LGB.
- Runway usage at LGB.
- Flight school operations.
- LGB Noise Ordinance.
- Status of unleaded avgas and its usage at LGB and nationwide.

In addition, the FAA recently posted a [Community Education Series](#) of videos to share with communities and address aviation concerns, including topics related to aircraft noise. A variety of factors contribute to aircraft noise that may cause disturbance for residents near airports and below flight paths. In this series, the FAA discusses the causes of noise exposure and how the FAA is collaborating with airports, operators, and communities to address it.

Should you have any questions, please contact me at (562) 570-2605.
