VFR SAFETY TIP NE of PHOENIX

PHX TRACON wants to help ensure your safety by avoiding IFR traffic arriving and departing SDL and DVT.

Please do not perform maneuvers in the shaded red "No Maneuver Zone."

It is also recommended that you receive flight following, or at least monitor 120.7 when transitioning through this "No Maneuver Zone."

This area is three miles either side of a line between SDL and Sky Ranch. (If you are familiar with the terrain, Pima Rd. is the approximate centerline.)

Look for the SPANS on www.FAASAFETY.gov

Joe Santoro and his office are scheduling the 2024 RSATS for Arizona. Thirty days prior to the RSAT, Air Traffic Managers are encouraged to conduct a Pilot/Controller Forum. The FAASteam is here to help promote and assist with the Forum.

In addition to the Towered Civilian Towers listed here, ASAG would like to initiate Pilot/Controller Forums for our state's two Joint Use Airfields, Yuma and Sierra Vista.
