

KSMO – A FIREFIGHTING RESOURCE

“It takes a truly special kind of person to say, “not in my backyard,” and then travel to Long Beach, Burbank, Ontario, or LAX, board a plane, and a trip from someone else’s neighborhood.” - SCAUWG.ORG Webmaster

Two KSMO Videos were photographed during the devastating January 2025 LA Fires. Our GA Airports and the brave firefighting pilots and firemen with boots on the ground all proved invaluable. They saved lives and property!

Santa Monica Airport’s importance should not be discounted. Emergencies happen. KSMO provides potential community support.
