For the sake of emergency services & firefighting effectiveness throughout the LA Basin, the commitment made via the LA County Board of Supervisors June 30, meeting, motion 16, reversing the previous acceptance denial, and deciding to accept Federal Funds (an Airport Improvement Grant) for the benefit of runway maintenance at Whiteman Airport is welcomed and applauded. Barton Heliport (LA County fire fighting base) and the adjacent Whiteman Airport, recipient of FAA Designated “Reliever,” status, work hand in hand to serve all of the LA Basin.
